

SmartComfort® by Carrier

In 1902 Willis Carrier designed the first modern air-conditioning system and it was his invention that forever changed indoor comfort. Willis Carrier's legacy lives on as Carrier is one of the world leaders in heating, air-conditioning and refrigeration solutions.

Carrier is continuously innovating and setting the standard for HVAC comfort, performance, energy efficiency and sustainability in homes and businesses everywhere. It strives to create comfortable and productive environments, regardless of the climate, while maintaining a responsible balance between the comfort today and the world we live in tomorrow.

SmartComfort® Difference

Dependable

Field-tested and durable with a two-year manufacturer's limited replacement warranty on the outdoor unit.

Consistent, Year-Round Comfort

Creates indoor comfort all year long and without breaking the bank.

Enhanced Warranty

SmartComfort® outdoor equipment purchased includes a 2-year No Hassle Replacement™ limited warranty, which means if a compressor fails or the refrigerant leaks, the owner has the option of a one-time replacement from the manufacturer.

Innovative Design

Our dense coil guard makes it easier to inspect and clean the coil.

Efficiency

SmartComfort® air conditioners and heat pumps offer a range of impressive SEER (seasonal energy efficiency ratio) ratings that reach as high as 14 SEER to help save energy and reduce utility bills.

Corrosion-Resistant Construction

The durable galvanized steel cabinet better stands up to the elements, and the wire grille optimizes airflow while protecting the coils.

Hard-Working

Units are built for optimal and dependable performance.
